

KITCHEN MEASURING GUIDE

Kitchen Measuring Guide

Measure Like A Pro

Measuring is an important step, but it doesn't have to be complicated. Follow this simple guide to make sure you can give your designer all the info they need to get started on your project.

You Will Need

- Tape measure 16'-25'
- Pencil
- Paper *Grid paper works best*
- Camera or phone
- Ladder or step stool
- Helper *Optional*

Kitchen Measuring Guide

Start With A Sketch

STEP 1

Draw the overall shape of the room, then add measurements.

- Draw room shape
- Start in one corner and measure clockwise. Record the overall length of each wall
- Measure the ceiling height, in several different locations, record the lowest measurement

Kitchen Measuring Guide

STEP 2

Measure all openings & obstacles.

- ❑ Width of each door & window
Include trim as part of the door/window measurement.
- ❑ Distance from floor to bottom of window casing. Overall window height, including casing
- ❑ Height, width & depth of appliances/fixtures you plan to keep
For new appliances include type: 30" range or 36" cooktop & double wall ovens, drawer microwave, etc. Brand & model if you have made decisions on new appliances.
- ❑ Distance from wall to center of sink & each appliance
- ❑ Indicate locations of outlets & switches

Take Photos

STEP 3

A picture is worth a thousand words.
Help your designer assess the space
by taking pictures of the entire space.
Be sure to include pictures of each wall.
